Management Discussion And Analysis Report

1. Industry Structure and Developments

Macro-economic developments:

The Indian economy grew by 8.9% in FY22 against a contraction of 6.6% in FY21. India's broad range of fiscal, monetary, and health responses to the crisis supported its recovery. This, along with the economic reforms, are expected to alleviate the longer-lasting adverse impact of the crisis. The RBI would be vigilant of how the inflation dynamics and economic impact of the ongoing Ukraine Russia crisis plays out in the coming FY and how currency depreciation and inflation is kept in check depending on demand recovery.

On the brighter side, India's economic recovery with calibrated opening up of the economy post lockdown is progressing well, with better-than-expected growth rates, and this trajectory is expected to continue. India has endured the pandemic pretty well over the last 2 years and has come out strong and resilient. The current pressures on the economy will settle and pass.

Key developments in Credit Market and NBFC sector:

There was significant growth in credit uptake in FY22, with agricultural and industrial sectors and personal loans driving the uptick. Falling GNPA ratios in the industry sector contributed to a significant rise in lending to this sector, post-pandemic. NBFCs have shown signs of healthier balance sheet and provisions compared to the levels seen pre-pandemic.

The industry seems to be in a better position to lend and will likely remain resilient to rising stress due to sanctions on Russia and inflation concerns. However, credit growth remains far below the prepandemic levels and needs an uptick at a sustainable pace. RBI has taken steps to strengthen the regulatory framework through supervisory tools, and asset recognition guidelines which is a positive sign for the industry in the longer run.

Well-capitalized NBFCs like Provincial Finance and Leasing Co Private Limited (the Company) with low leverage and significant growth capital at disposal, will be in a better position to tackle the economic crisis and are expected to gain market share from its competitors and peer's players.

Financial Services -NBFC Sector:

Over the past few years, Non-Banking Financial Companies (NBFCs) have played a prominent role in the Indian financial system. They provide financial inclusion to the underserved section of the society that does not have easy access to credit. NBFCs have revolutionized the Indian lending system and have efficiently

leveraged digitization to drive efficiency and provide customers with a quick and convenient financing experience. The plethora of services include vehicle financing, MSME financing, home financing, microfinance and other retail segments. The Government has consistently worked on the governance measures to strengthen the systemic importance of the NBFCs. As of March 31, 2022 there were approximately over 9,500 NBFCs registered with Reserve Bank of India (RBI), of which 49 deposit accepting NBFCs.

The pandemic impacted the NBFCs operations, leading to decline in disbursements across the sectors.

However, the support of RBI has been very critical during the pandemic. RBI has generally kept system awash with excess liquidity and brought down short-term rates leading to significant vibrancy in bond market. AAA corporate bond spreads are close to all time low now. Going ahead, while the economy is recovering fast, however, global recovery remains strong and should result in spill overs to India through trade, prices and flows channel. Macro-environment thus augurs well for India's business cycle as well as financial sector.

Similarly, the support and focus of the Government through various liquidity measures such as repo rate cut, targeted long-term repo operations, special liquidity scheme and partial credit guarantee scheme, kept the sector afloat. The total credit outstanding from the NBFCs for Financial Year 2020-21 stood at Rs.23.75 trillion and is expected to grow by 6-7% in the Financial Year 2021-22. This growth was mainly led by growth in the housing, auto, gold and other retail segments which stood resilient even in the previous fiscal year. While the disbursement and AUM trends improved in the second and third quarters of Financial Year 2021-22, the trend is expected to continue in Q4 of Financial Year 2021-22 due to the limited impact of the third wave of the pandemic. The disbursement growth would have to remain healthier for a sustained AUM growth. Besides, bank credit growth to the NBFC sector improved significantly to 14.6% in February 2022 from 7% a year ago.

Macroeconomic Situation & Indian Economy:

The Financial Service Sector including the NBFC Sector /landscape is witnessing far-reaching changes in the backdrop of rapid innovation, disruption and evolution of new business models.

Presently we are living in turbulent times. The continuing war in Europe and the pandemic have rendered the global macroeconomic outlook highly uncertain. Countries are facing unexpectedly high inflation including food inflation, supply chain disruptions and demand-supply imbalances in product and labour markets. Central banks are tightening monetary policy at a rapid pace, raising fears of imminent recession. Commodity prices have eased to some extent what from their recent past but still is high but remain elevated. Higher interest rates in the US along with increased risk aversion among global investors have fuelled safe haven demand and strengthening of the US Dollar. Currencies of Emerging Market Economies (EMEs) and even of some Advanced Economies (AEs) are depreciating

vis-à-vis the US dollar. Consequently, inflationary pressures are building up and external funding conditions are becoming tighter, posing financial stability challenges in emerging market economies. Overall, the global situation remains grim amidst fluid geopolitical situation while the war and the pandemic add to the forces of disintegration and fragmentation of the global economy.

In such an environment, the Indian economy remains relatively better placed, drawing strength from its macroeconomic fundamentals. The financial system is well-capitalised, asset quality indicators have improved, balance sheets are stronger, and banks have returned to profitability. We are also seeing healthy pickup in credit demand. The external sector is well-buffered to withstand the ongoing terms of trade shocks and the portfolio outflows. The recently released Financial Stability Report of the RBI highlights that the Indian financial system remains resilient and supportive of the ongoing economic revival. Banks are well-positioned to withstand even severe stress scenarios without falling below the minimum capital requirement. The Reserve Bank continues to remain watchful of the headwinds and shall be proactive in taking measures as necessary to ensure financial stability.

Due to the RBI actions, including measures to encourage inflows, the movements of the rupee have been relatively smooth and orderly. By eschewing sudden and volatile shifts, we have ensured that expectations remain anchored, and the forex market functions in a stable and liquid manner. We will continue to engage with the forex market and ensure that the rupee finds its level in line with its fundamentals. I would like to reiterate that we have no particular level of the rupee in mind, but we would like to ensure its orderly evolution and we have zero tolerance for volatile and bumpy movements.

The present Landscape of NBFCs and preparing NBFCs for tomorrow

The NBFC sector is going through a period of churning. The future of NBFC would witness a major shift in customers' choices and preferences with enhanced expectations from the NBFC sector. Each of the developments would present unique opportunities and challenges to the existing and newer players. Sometimes the disruptions can be so sudden that it is impossible to anticipate them. The future of NBFCs is expected to revolve around (i) the adoption of emerging technologies, customisation of products and services, enhanced business and process automation; and (ii) development of suitable business models with strong governance frameworks, better information management, changes in the mode of working, building of enhanced resilience capabilities and a more responsible societal and environmental role for NBFCs.

The NBFC sector has undergone significant changes in terms of market structure and competition.

Role of NBFC in Financial Inclusion

Financial inclusion has been pursued vigorously with steady improvements as reflected in the Financial Inclusion Index introduced by the Reserve Bank of India and NBFC is also expected to play its role in Financial Inclusion.

Going ahead, the NBFC sector is expected to be more collaborative as well as competitive, with newer players offering innovative financial products. NBFC need to prepare themselves for facing the dynamic environment, while keeping their focus on appropriate business models, sustainability, stability, and consumer centrality. More importantly, good governance remains fundamental to success and should not be compromised. Due care needs to be taken to protect the stakeholders from digital frauds, data breaches and cybercrimes. NBFC being a service sector enhanced customer protection and experience should be given the primacy it deserves.

2. State of Company Affairs:

i) Overview:

Provincial Financial and Leasing Co Private Limited ("the Company") is a systemically important, non-deposit accepting NBFC registered with RBI and has become a systemically important, NBFC with effect from March 30, 2022 consequent to issue and listing of market linked Debentures (Non- Convertible Debentures {NCDs,} operating primarily in the lending / investment by of securities issued by Corporates and/ or Statutory Corporations.

In view of the immediate and sudden spurt of 2nd wave of COVID-19 in FY.2021-22 lockdown was declared by the Government, the Company was forced to temporarily reduce fresh / new investments Subsequently, with uptick in financial activity the Company restarted NBFC activities To capitalize on its strong financial position and take advantage of strong better investment environment the Company is planning to expand its business activities, investment horizon .and strengthen its footprint.

ii) Financial Performance- Key Highlights:

(a) Quality of Investments:

The quality of our investments remained fairly robust in an extremely challenging economic environment.

(b) Revenue and Profitability:

The revenue grew by 344.6% from Rs.43.11 lakhs in FY21 to Rs. 191.69 lakhs in FY22.The PAT decreased from Rs. 5.54 lakhs to Rs. 4.09 lakhs.

(c) Liquidity and Gearing profile:

The Capital Adequacy Ratio (CAR) stood at 29.36% as on FY22. The cash and cash equivalent / liquid investments as on 31st March 2022 stood at Rs. 62,029.39 lakhs vis-à-vis that of Rs. 52.49 lakhs as on 31st March 2021.

A strong liquidity and gearing profile put us on a strong footing as compared to many of our peers.

3. Human Resources:

The Company has a small employee base. However, the Company is in the process of recruiting required manpower to cater to the need of increasing business activities. The Board of Directors of the Company is in the process of constituting required statutory and Non- statutory Committees including the Nomination and Remuneration Committee (the NRC) and the NRC is expected to review periodically career growth plan of senior management personnel possessing ability to build teams and nurture leaderships for future growth plans of the Company.

4. SWOT Analysis:

Strengths: The Promoters of the Company are committed to meet and honour the requirements of the funds of the Company for the business of the Company

Weaknesses: Increased completion in the business of the Company and the credit risk.

Opportunities: The Company as a NBFC by becoming more collaborative as well as competitive, with newer players offering innovative financial products the Company will be required to prepare itself to face the dynamic environment, while keeping its focus on appropriate business models, sustainability, stability, and consumer centrality. More importantly, good governance remains fundamental to success and should not be compromised. Due care needs to be taken to protect the stakeholders from digital frauds, data breaches and cybercrimes. NBFC being a service sector enhanced customer protection and experience should be given the primacy it deserves.

Threats: Credit risk of its customers, cybersecurity and cybertheft has become a threat to the business of the Company.

5. Roadmap for the current Financial Year:

Through continuous improving exercise the Company intends to achieve satisfactory results of the Company pertaining certain risk and controls as stated below.

Key risks and controls:

The Company is engaged in the NBFC business and is exposed to the following key risks:

i) Credit Risk:

This is the risk associated of recovery of capital from counterparty. The Company is in the process of introducing a robust credit risk framework including sectoral guardrails, strong policy and compliance framework, comprehensive due-diligence and risk assessment process, prudent approval process, robust monitoring process and strong governance to mitigate the risk.

ii) Market Risk:

This is the risk associated with adverse market movements. The Company is in the process of introducing a robust monitoring process to track key market parameters to contain interest rate risk, concentration risk and risk associated with asset liability mismatch through internal risk models which is reviewed by the relevant committee from time to time to take appropriate actions.

iii) Operational Risk:

This is the risk associated with inadequate processes and internal controls. The Company is in the process of introducing a robust processes and strong compliance framework in place to mitigate the same. Our audit and compliance team periodically monitor the adequacy of processes, ensure adherence to the same and strengthen the internal controls.

iv) Liquidity Risk:

The Company is in the process of adopting a cautious approach towards liquidity management. We maintain adequate liquidity to meet any unforeseen event. In addition, we adhere to strict internal guidelines to appropriately manage Asset Liability Mismatch (ALM) and remain compliant with the regulatory requirements.

v) Business/Strategic Risk:

These are risks that affect or are created by business strategy and strategic objectives. The Company's management of intends to mitigate this risk by diversification in its business through a balanced growth across various products and geographies in line with the board approved Risk framework.

vi) Compliance Risk:

This is the risk which could expose the Company to legal penalties and losses when it fails to act in accordance with the laws and regulations and best practices The Compliance Team works with other teams of the Company to ensure timely compliances of applicable laws, rules and regulations with proper Compliance framework.

vii) Reputation Risk:

This risk arises from ineffective management of other risks resulting from poor governance and control failures. The company has a strict code of conduct for its employees, an approved corporate governance framework and a customer grievance mechanism in place.

The Company is in the process of establishing a Whistle Blower policy. It also a Risk Control Unit that both works on preventing and investigating frauds and periodic reports are tabled to the senior management and the board of Directors of the Company and the Board Committees to be constituted.

Cautionary:

The Board of Directors have reviewed the Management Discussion and Analysis prepared by the Management. Statement in this report of the Company's objective, projections, estimates, exceptions, and predictions are forward looking statements subject to the applicable laws and regulations. The statements may be subjected to certain risks and uncertainties.

Disclaimer: All the data used in the initial sections of this report has been taken from publicly available resources and discrepancies, if any, are incidental and unintentional.

INDEPENDENT AUDITOR'S REPORT

To the Members of
Provincial Leasing and Finance Company Private Limited

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of **Provincial Leasing and Finance Company Private Limited** ("the Company"), which comprise the balance sheet as at 31st March 2022, the statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity, and statement of cash flows for the year ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India,, of the state of affairs of the Company as at March 31, 2022, and its loss and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting

Registered with Limited Liability under The Limited Liability Partnership Act, 2008 with Registration No. AAA - 7120

Regd. Office: 40, Morarji Velji Bldg, 1st flr, 9/15, Dr. M.B. Velkar Street, Kalbadevi, Mumbai – 400002.

Tel: +91 22 43153000 Fax: +91 22 43153015 Email: aja@ajallp.com Website: www.ajallp.com

frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibility

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the appropriateness of this assumption. If we conclude that a material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence

obtained up to the date of our Auditor's Report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order 2020 ("the said Order"), issued by the Central Government of India, in terms of sub-section (11) of Section 143 of the Act, we give in the "Annexure A", a statement on the matters specified in the paragraphs 3 and 4 of the said Order.
2. As required by Section 143 (3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, including Other Comprehensive Income, Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid financial statements comply with the IND AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on 31st March, 2022, taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2022, from being appointed as a director in terms of Section 164 (2) of the Act.
 - f) With respect to adequacy internal financial controls system over financial reporting of the company and the operating effectiveness of such controls as at March 31, 2022, refer our separate report in "Annexure B". Our report expresses unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls over financial reporting.
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of

Registered with Limited Liability under The Limited Liability Partnership Act, 2008 with Registration No. AAA - 7120

Regd. Office: 40, Morarji Velji Bldg, 1st flr, 9/15, Dr. M.B. Velkar Street, Kalbadevi, Mumbai – 400002.

the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

- i. The Company does not have any pending litigations which would impact its financial position.
- ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv.
 - a. The Management has represented that, to the best of its knowledge and belief, other than as disclosed in Note 13 sub note 1 and 2, no funds (which are material either individually or in the aggregate) have been invested (from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person, or entity, with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries
 - b. The Management has represented, that, to the best of its knowledge and belief, other than as disclosed in Note 13 sub note 1 and 2, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
 - c. Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The company has not declared or paid dividend during the year.

ANNEXURE A TO THE AUDITORS' REPORT

(Annexure referred to in paragraph 1 under the heading of "report on other Legal and Regulatory Requirements" of our report of even date to the members of Provincial Leasing and Finance Company Private Limited on the accounts for the year ended 31st March, 2022)

- i. In respect of the Company's Property, Plant and Equipment and Intangible Assets:
 - a. The company does not have Property, Plant and Equipment. Therefore, the reporting under clause 3(i), (i)(a), (i)(b), (i)(c), (i)(d) and (i)(e) of the Order are not applicable to the Company.
- ii. In respect of Company's Inventories:
 - a. The Company's business does not involve keeping Inventories. Therefore, the provisions of clause 3(ii)(a) of the Order are not applicable to the Company.
 - b. During the year, the Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate from banks and financial institutions [on the basis of security of current assets] and accordingly, the question of our commenting on whether the quarterly returns or statements are in agreement with the unaudited books of account of the Company does not arise.
- iii. During the year, the Company has made investments in and granted loans, unsecured, to companies, limited liability partnerships. The Company has not provided any guarantee or security to any other entity during the year. With respect to such investments and loans and advances:
 - a. Company's principal business is to give loans. Therefore, the provisions of clause 3(iii)(a) of the Order are not applicable to the Company.
 - b. In respect of the aforesaid investments and loans in nature of the loan, the terms and conditions under which such loans were granted and investments were made are not prejudicial to the Company's interest.
 - c. In respect of the aforesaid loans/advances in nature of loans, the schedule of repayment of principal and payment of interest has been stipulated, and the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest as applicable.
 - d. In respect of the aforesaid loans, there is no amount which is overdue for more than ninety days.
 - e. Company's principal business is to give loans. Therefore, the provisions of clause 3(iii)(e) of the Order are not applicable to the Company.
 - f. Following loans were granted during the year to related parties under Section 2(76) which are repayable on demand or where no schedule for repayment of principal [and payment of interest] has been stipulated by the Company.

Annexure B to the Independent Auditors' Report

The Annexure referred to in Independent Auditors' Report to the members of the Provincial Leasing and Finance Company Private Limited on the standalone financial statements for the year ended 31st March, 2022 :

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Provincial Leasing and Finance Company Private Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Provincial Finance and Leasing Co Private Limited

Notes to Financial Statement for the year ended 31st March 2022

1. COMPANY INFORMATION

Provincial Finance and Leasing Co Private Limited ('the Company'), incorporated in India, is a private limited company. The Company is Non-Deposit Accepting Non-Banking Financial Company ('NBFC') as defined under Section 45-IA of the Reserve Bank of India ('RBI') Act, 1934. The company is wholly owned subsidiary of Alpha Alternatives Holdings Private Limited.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

2.1 Statement of compliance and basis for preparation and presentation of financial statements

The financial statements of the Company have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) issued by Ministry of Corporate Affairs in exercise of the powers conferred by section 133 read with sub-section (1) of section 210A of the Companies Act, 2013. In addition, the guidance notes/announcements issued by the Institute of Chartered Accountants of India (ICAI) are also applied along with compliance with other statutory promulgations require a different treatment. Any application guidance/clarifications/directions issued by RBI or other regulators are implemented as and when they are issued/ applicable.

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Division III to Schedule III to the Companies Act, 2013 ("the Act") applicable for Non-Banking Finance Companies ("NBFC"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash Flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Ind AS.

The Company's financial statements upto and for the year ended 31 March 2021 were prepared in accordance with the Generally Accepted Accounting Principles in India (IGAAP) under the historical cost convention as a going concern and on accrual basis, unless otherwise stated, and in accordance with the provisions of the Companies Act, 2013, the Accounting Standards specified under section 133 of the Companies Act, 2013 ("the Act") read with rule 7 of the Companies (Accounts) Rules 2014 (as amended).

These are the Company's first financial statements prepared in accordance with Indian Accounting Standards (Ind AS). The Company has applied Ind AS 101, First-time Adoption of Indian Accounting Standards for transition from Previous GAAP to Ind AS. An explanation of how transition to Ind AS has affected the previously reported financial position, financial performance and cash flow of the Company is provided.

These financial statements are authorised for issue by the Board Directors of the company as its meeting held on 30th May 2022.

2.2 Functional and presentation currency

The financial statements are presented in Indian Rupees, which is the functional currency of the Company and the currency of the primary economic environment in which the company operates.

2.3 Basis of Measurement

The financial statements have been prepared on the historical cost basis except for certain financial instruments which are measured at fair values and net defined benefit liability/assets.

2.4 Current-non-current classification

Assets

An Asset is classified as current when it satisfies any of the following criteria:

- a. It is expected to be realized in, or is intended for sale or consumption in, the company's normal operating cycle;
- b. It is held primarily for the purpose of being traded;
- c. It is expected to be realized within 12 months after the reporting date; or
- d. It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current Assets include the current portion of non-current financial assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a. It is expected to be settled in the company's normal operating cycle.
- b. It is held primarily for the purpose of being traded;
- c. It is due to be settled within 12 months after the reporting date; or
- d. The Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current

3. Use of estimates and judgments

The preparation of financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions, that affect the application of accounting policies and the reported amounts of assets, liabilities and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed at each balance sheet date. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in following notes:

i) Business model assessment

Classification and measurement of financial assets depends on the results of the solely payment of principal and interest ('SPPI') and the business model test. The Company determines the business model at a level that reflects how the Company's financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the

performance of the assets and how these are managed and how the managers of the assets are compensated.

The Company monitors financial assets measured at amortised cost or fair value through other comprehensive income that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

The Company determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Company's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- How the performance of the business model and the financial assets held within that business model are evaluated and reported to the Company's key management personnel.
- The risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed.
- How managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected).

The expected frequency, value and timing of sales are also important aspects of the Company's assessment.

ii) Impairment of Financial Assets

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered as accounting judgements and estimates include:

- The Company's internal credit grading model, which assigns Probability of Defaults (PDs) to the individual grades
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a (Long Term Expected Credit Loss) LTECL basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, Exposure At Defaults (EADs) and Loss Given Default ('LGDs')
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

2.6 Revenue recognition

Recognition of interest income on loans

Interest income is recognised in Statement of profit and loss using the effective interest method for all financial instruments measured at amortised cost or at fair value through other comprehensive income. The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument.

The calculation of the effective interest rate includes transaction costs and fees that are an integral part of the contract. Transaction costs include incremental costs that are directly attributable to the acquisition of financial asset.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is recorded as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through Interest income in the Statement of profit and loss.

The Company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired, the Company calculates interest income by applying the effective interest rate to the net amortised cost of the financial asset. If the financial asset cures and is no longer credit impaired, the Company reverts to calculating interest income on a gross basis.

Additional interest and interest on trade advances, are recognised when they become measurable and when it is not unreasonable to expect their ultimate collection.

Net Gain/Loss on fair value changes

Any differences between the fair values of financial assets classified as fair value through the profit or loss, held by the Company on the balance sheet date is recognised as an unrealised gain / loss. In cases there is a net gain in the aggregate, the same is recognised in "Net gains on fair value changes" under Revenue from operations and if there is a net loss the same is disclosed under "Expenses" in the statement of Profit and Loss.

Similarly, any realised gain or loss on sale of financial instruments measured at FVTPL is recognised in net gain / loss on sale of financial instruments.

However, net gain / loss on derecognition of financial instruments classified as amortised cost is presented separately under the respective head in the Statement of Profit and Loss.

Other income and expenses

Other income and expenses are recognised in the period in which they occur.

3. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Recognition and initial measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Regular purchase and sale of financial assets are recognised on trade-date, the date on which the Company commits to purchase or sell the asset.

Financial assets and financial liabilities are initially measured at fair value or amortised cost. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at FVTPL) are added to or deducted from the value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in Statement of profit and loss.

Classification and Subsequent measurement of financial assets

On initial recognition, a financial asset is classified as measured at FVTPL.

All financial assets are recognised initially at fair value. However, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset are added to the fair value. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost,
- Debt instruments at fair value through other comprehensive income (FVTOCI),
- Debt instruments, derivatives and equity instruments, mutual funds at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI).

Debt Instruments at Amortised Cost

A 'debt instrument' is measured at the amortised cost, if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the Statement of Profit and Loss. The losses arising from impairment are recognised in the Statement of Profit and Loss.

(c) Debt Instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI, if both of the following criteria are met:

- a) The objective of the business model is achieved, both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent Solely Payments of Principal and Interest (SPPI).

Debt instruments included within the FVTOCI category are measured initially, as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). However, the Company recognises interest income, impairment losses, and reversals and foreign exchange gain or loss in the Statement of Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to the Statement of Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt Instrument at FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

(d) Equity Investments

Investments in Subsidiaries, Associates and Joint Ventures are out of scope of Ind AS 109 and, hence, the Company has accounted for its investments in Subsidiaries, Associates and Joint Ventures at cost.

All other equity investments are measured at fair value. Equity instruments, which are held for trading, are classified as at FVTPL. For equity instruments, other than held for trading, the Company has irrevocable option to present in OCI, subsequent changes in the fair value. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

Where the Company classifies equity instruments as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to the Statement of Profit and Loss, even on sale of investment. Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the Statement of Profit and Loss.

Impairment of financial assets

Overview of the ECL principles

The Company records allowance for expected credit losses for all loans, together with loan commitments, in this section all referred to as 'financial instruments' other than those measured at FVTPL. Equity instruments are not subject to impairment under Ind AS 109.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss or LTECL), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss (12m ECL).

The Company's policies for determining if there has been a significant increase in credit risk are set out.

The 12m ECL is the portion of LTECLs that represent the ECLs that result from default events on a financial instrument that are possible within the 12 months after the reporting date.

Both LTECLs and 12m ECLs are calculated on an individual basis, depending on the nature of the underlying portfolio of financial instruments.

The Company has established a policy to perform an assessment, at the end of each year end, of whether a financial instrument's credit risk has increased significantly since initial recognition, by considering the change in the risk of default occurring over the remaining life of the financial instrument.

Based on the above process, the Company categorises its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1: When loans are first recognised, the Company recognises an allowance based on 12mECLs. This also include facilities where the credit risk has improved, and the loan has been reclassified from Stage 2.

Stage 2: When a loan has shown a significant increase in credit risk since origination, the Company records an allowance for the LTECLs. Stage 2 loans also include facilities, where the credit risk has improved, and the loan has been reclassified from Stage 3.

Stage 3: Loans considered credit impaired. The Company records an allowance for the LTECLs.

Write Off

Loans and debt securities are written off when the Company has no reasonable expectations of recovering the financial asset (either in its entirety or a portion of it). This is the case when the Company determines that the borrower does not have assets or sources of income that could generate sufficient cash flows to repay the amounts, subject to the write-off. A write-off constitutes a derecognition event. The Company may apply enforcement activities to the financial assets written off.

Employee Benefits

Defined contribution plan

A defined contribution plan is a plan for the post-employment benefit of an employee under which the Company pays fixed periodic contributions into Provident Fund and Employee State Insurance Corporations. The Company has no further legal or constructive obligation to pay once contributions are made. Contributions made are charged to employee benefit expenses in the period in which the employment services qualifying for the benefit are provided.

Defined benefit plan:

The Company's gratuity benefit scheme is a defined benefit plan which is administered through Company gratuity scheme. The Company's net obligation in respect of gratuity benefit scheme is calculated by estimating the amount of future benefit that employees have earned in return for their service in the current and prior periods; that benefit is discounted to determine its present value, and the fair value of any plan assets is deducted.

The present value of the obligation under such defined benefit plan is determined based on actuarial valuation at the balance sheet date by an independent actuary using the Projected Unit Credit

Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures. The obligation is measured at the present value of the estimated future cash flows. The discount rates used for determining the present value of the obligation under defined benefit plan, are based on the market yields on Government of India securities as at the balance sheet date.

When the calculation results in a benefit to the Company, the recognised asset is limited to the net total of any unrecognised actuarial losses and past service costs and the present value of any future refunds from the plan or reductions in future contributions to the plan.

The Company recognises all re-measurement gains and losses arising from defined benefit plans in the Statement of other comprehensive income in the period in which they occur and not reclassified to statement of profit and loss in the subsequent period. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in the statement of profit and loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in the statement of profit and loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs in the statement of profit and loss.

Borrowing Cost

Borrowing costs, attributable to acquisition and construction of qualifying assets, are capitalised as a part of the cost of such assets up to the date when such assets are ready for its intended use. Other borrowing costs are charged to the Statement of Profit and Loss in the period in which they are incurred.

Taxation

Income tax expense comprises current and deferred tax. It is recognized in the statement of profit and loss except to the extent that it relates to a business combination, or items recognized directly in equity or in other comprehensive income.

Current tax

Current tax is the amount of tax payable (recoverable) in respect of the taxable profit/ (tax loss) for the year determined in accordance with the provisions of the Income-tax Act, 1961. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expenses that are taxable or deductible in other years & items that are never taxable or deductible. Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using tax rates and tax laws that have been enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax:

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and
- indexation benefit in relation to investments in subsidiaries, given that the Company does not have any intentions to dispose such investments in the foreseeable future.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised, such reductions are reversed when the probability of future taxable profits improves. Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Taxes relating to items recognised directly in equity or OCI is recognised in equity or OCI and not in the statement of profit and loss.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

Provisions and contingences

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is more likely than not that an outflow of economic benefits will be required to settle the obligation. Provisions are discounted where the effect of discounting is material at a pre-tax rate that reflects current market assessments of the time value of money. Unwinding of the discount (accretion) is recognized as a finance cost. Discount rates are assessed and projected timing of future obligations each reporting year.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not require an outflow of resources embodying economic benefits or the amount of such obligation cannot be measured reliably. When there is a possible obligation or a present obligation or a present obligation in respect of which likelihood of outflow of resources embodying economic benefits is remote, no provision or disclosure is made.

Cash and cash equivalents

Cash and cash equivalents for the purpose of cash flow statement include cash in hand, balances with the banks and short-term investments with an original maturity of three months or less.

Earnings per share

The basic earnings per share ('EPS') is computed by dividing the net profit attributable to equity shareholders for the period, by the weighted average number of equity shares outstanding during the year. Diluted EPS is computed using the weighted average number of equity and dilutive (potential) equity equivalent shares outstanding during the period except where the results would be anti-dilutive.

Nature and purpose of other equity

(i) Retained earnings

Retained earnings or accumulated surplus represents total of all profits retained since Company's inception. Retained earnings are credited with current year profits, reduced by losses, if any, dividend payouts, transfers to General reserve or any such other appropriations to specific reserves.

(ii) Reserve fund in terms of section 45-IC(1) of the Reserve Bank of India Act, 1934

As per Section 45-IC of Reserve Bank of India Act, 1934 every non-banking financial company shall create a reserve fund and transfer therein a sum not less than twenty per cent of its net profit every year as disclosed in the Statement of profit and loss and before any dividend is declared. No appropriation of any sum from the reserve fund shall be made by the non-banking financial company except for the purpose as may be specified by the Reserve Bank of India from time to time and every such appropriation shall be reported to the Reserve Bank of India within twenty-one days from the date of such withdrawal. The said amount has been transferred at the end of the Financial Year.

(iii) General reserve

The general reserve is a free reserve, retained from Company's profits and can be utilized upon fulfilling certain conditions in accordance with specific requirement of Companies Act, 2013.

(iv) Securities Premium

Securities premium reserve is used to record the premium on issue of shares and Debentures.

Provincial Finance And Leasing Co Private Limited
Notes to Financial Statements for the year ended 31st March 2022

NOTE - 26

Earnings per share (EPS)

Basic EPS is calculated by dividing the profit for the year attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year.

Diluted EPS is calculated by dividing the profit attributable to equity holders of the Company by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares of the Company.

The following reflects the income and share data used in the basic and diluted EPS computations:

(Amount in lakhs)

Particulars	For the year ended 31 st March 2022	For the year ended 31 st March 2021
(A) Net profit attributable to equity shareholders	4.09	5.54
(B) Weighted average number of equity shares for at the beginning of year	31,36,388	31,36,388
Effective shares issued during the year	9,66,027	-
(C) Weighted average number of equity shares o/s during the period	41,02,415	31,36,388
Basic earning price per share (Rs) (A/C)	0.13	0.18
Diluted earning price per share (Rs) (A/C)	0.10	0.18

NOTE - 27

Segment Information

Disclosure under Indian Accounting Standard 108 – 'Operating Segments' is not given as, in the opinion of the management, the entire business activity falls under one segment, viz. investing and financial services. There are no operations outside India and hence there is no external revenue or assets which require disclosure. Also there are no revenue from transactions with a single external customer or counterparty amounted to 10% or more of the Company's total revenue in the year ended 31st March 2022 or 31st March 2021

NOTE - 28

Contingent Liabilities

There are no contingent liabilities for the year ended 31st March 2022 and 31st March 2021.

NOTE - 29

Income tax expense

Fair Value Measurement

Financial Instrument by category and hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are recognised and measured at fair value. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and equity securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.
- Level 2: The fair value of financial instruments that are not traded in an active market (for example, Market Linked Debentures) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.
- Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3.

Note - 33

Capital Management

The Company maintains an actively managed capital base to cover risks inherent in the business, meeting the capital adequacy requirements of Reserve Bank of India (RBI), maintain strong credit rating and healthy capital ratios in order to support business and maximise shareholder value. The adequacy of the Company's capital is monitored by the Board using, among other measures, the regulations issued by RBI.

The pillars of its policy are as follows:

- (i) Maintain diversity of sources of financing and spreading the maturity across tenure buckets in order to minimize liquidity risk.
- (ii) Maintain investment grade ratings for all its liability issuances by ensuring that the financial strength of the balance sheets is preserved.
- (iii) Manage financial market risks arising from Interest rate, equity prices and minimise the impact of market volatility on earnings.
- (iv) Leverage optimally in order to maximise shareholder returns while maintaining strength and flexibility of balance sheet.

This framework is adjusted based on underlying macro-economic factors affecting business environment, financial market conditions and interest rates environment.

The Company has complied in full with the capital requirements prescribed by RBI over the reported period. Refer Note 39 for disclosure of capital adequacy as per applicable RBI regulations.

Note - 34

Risk Management

The Company's activities expose it to market risk, liquidity risk and credit risk.

Risk	Exposure arising from	Risk Management
Credit risk	Loans and advances, cash and cash equivalents, financial assets measured at amortized cost.	Credit worthiness of Borrower & review monitoring, recovery process. Fixed deposits with highly rated banks
Liquidity risk	Debt Securities and other liabilities	Fixed Repayment, Asset Liability Management and periodic reviews by board relating to the liquidity position.
Market risk - Interest rate	Debt Securities at variable rates	Review of cost of funds and pricing disbursement
Market risk - security prices	Investments in mutual funds, Investment in Equity, Derivative Positions	Portfolio diversification, assessments of fluctuation in the equity price, Hedging

The Company's board of directors have overall responsibility for the establishment and oversight of the Company's risk management framework. As the MLDs of the company are recently, it has a period of six months to establish a risk management committee which shall be responsible for developing and monitoring the Company's risk management policies. The committee shall report regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

a) Credit risk management

Credit risk is the risk that the Company will incur a loss because its counterparties fail to discharge their contractual obligations. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, loan assets and other financial assets. Based on business environment in which the Company operates, a default on a financial asset is considered when the counter party fails to make payments within the agreed time period as per contract.

(i) Credit risk management

The Company considers probability of default upon initial recognition of asset and whether there has been any significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportive forward-looking information.

Definition of Default

A default on a financial asset is when the counterparty fails to make contractual payments when they fall due. Such financial assets are considered under Stage 3 (credit impaired) for the purpose of ECL calculation.

(ii) Provision for expected credit losses

The Company provides for expected credit loss based on following:

- a) Low risk : Risk associated with financial assets classified under Stage 1 for the purpose of ECL calculation.
- b) Medium risk : Risk associated with financial assets classified under Stage 2 for the purpose of ECL calculation
- c) High risk : Risk associated with financial assets classified under Stage 3 for the purpose of ECL calculation

Loans and advances/ Investments at amortised cost

The Company has given inter corporate loans towards the end of the reporting period.

Measurement of Expected Credit Losses

The Company has applied a three-stage approach to measure expected credit losses (ECL) on debt instruments accounted for at amortised cost. Assets migrate through following three stages based on the changes in credit quality since initial recognition:

(a) Stage 1: 12- months ECL: For exposures where there is no significant increase in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of the lifetime ECL associated with the probability of default events occurring within the next 12- months is recognized.

(b) Stage 2: Lifetime ECL, not credit-impaired: For credit exposures where there has been a significant increase in credit risk since initial recognition but are not credit-impaired, a lifetime ECL is recognized.

(c) Stage 3: Lifetime ECL, credit-impaired: Financial assets are assessed as credit impaired upon occurrence of one or more events that have a detrimental impact on the estimated future cash flows of that asset. For financial assets that have become credit-impaired, a lifetime ECL is recognized and interest revenue is calculated by applying the effective interest rate to the amortised cost.

At each reporting date, the Company assesses whether there has been a significant increase in credit risk of its financial assets since initial recognition by comparing the risk of default occurring over the expected life of the asset. In determining whether credit risk has increased significantly since initial recognition, the Company uses information that is relevant and available without undue cost or effort. This includes the Company's internal credit rating grading system, external risk ratings and forward-looking information to assess deterioration in credit quality of a financial asset.

The Company measures the amount of ECL on a financial instrument in a way that reflects an unbiased and probability-weighted amount. The Company considers its historical loss experience and adjusts the same for current observable data. The key inputs into the measurement of ECL are the probability of default, loss given default and exposure at default.

Probability of Default (PD)

The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months (12-month PD), or over the remaining lifetime (Lifetime PD) of the obligation.

Loss Given Default (LGD)

LGD represents the Company's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and preference of claim and availability of collateral or other credit support.

Exposure at default (EAD)

Exposure at default is the total value an entity is exposed to when a loan defaults. It is the predicted amount of exposure that an entity may be exposed to when a debtor defaults on a loan. The outstanding principal and outstanding arrears reported as of the reporting date for computation of ECL is used as the EAD for all the portfolios.

b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

c. Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while

(i) Price risk

The Company's investments carry a risk of change in prices. To manage its price risk arising from investments, the Company periodically monitors the sectors it has invested in, performance of the investee companies, measures mark- to- market gains/losses and reviews the same

(ii) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is not exposed to currency risk as at 31st March 2022.

(iii) Interest rate risk

The Company's main interest rate risk arises from debt securities with variable rates, which expose the Company to cash flow interest rate risk. The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

Note 35 First-time adoption of Ind AS

1. These financial statements, for the year ended 31 March 2022, are the first the Company has prepared in accordance with Ind AS. For periods up to and including the year ended 31 March 2021, the Company prepared its financial statements in accordance with accounting standards notified under section 133 of the Companies Act 2013, read together with paragraph 7 of the Company's (Accounts) Rules, 2014 (Indian GAAP).

Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for periods ended on 31 March 2022, together with the comparative period data as at and for the year ended 31 March 2021 and in the preparation of opening Ind AS balance sheet as at 01 April 2020, as described in the summary of significant accounting policies. Further to explanations in Note 2, this Note explains the principal adjustments made by the Company in restating its Indian GAAP financial statements, including the balance sheet as at 01 April 2020 and the financial statements as at and for the year ended 31 March 2021. (Also refer Note 37 for reconciliations).

The presentation requirements under Indian GAAP differs from Ind AS, and hence, Indian GAAP information has been regrouped for ease of reconciliation with Ind AS. The regrouped Indian GAAP information is derived from the audited financial statements of the Company prepared in accordance with Indian GAAP.

2. Exemptions and exceptions availed

Set out below are the applicable Ind AS 101 optional exemptions and mandatory exceptions applied in the transition from Indian GAAP to Ind AS.

Ind AS mandatory exemptions

I Estimates

The Company's estimates in accordance with Ind AS at the date of transition to Ind AS are consistent with estimates made for the same date in accordance with Indian GAAP.

The estimates used by the Company to present these amounts in accordance with Ind AS reflect conditions as at the transition date and as of 31 March 2021.

II Classification of financial assets

Ind AS 101 requires an entity to assess classification and measurement of financial assets (e.g. loans and investments) on the basis of the facts and circumstances that exist at the date of transition to Ind AS. The Company has assessed financial assets at the date of transition and has classified as loans and other financial assets are measured at amortised cost.

		31 st March, 2021	1 st April, 2020
Reserves as per Indian GAAP		107.54	101.97
Effects of transition to Ind AS:		(0.00)	(0.04)
Add / (Less) :			
Remeasurement gains/(losses) of defined benefit plan (OCI)	(a)		(0.04)
Deferred tax			
Other equity under Ind AS		107.54	101.93

Note to the reconciliation of equity as at 01 April 2020 and 31 March 2021 and profit or loss for the year ended 31st March 2022

(a) Defined benefit liabilities

Both under Indian GAAP and Ind AS, the Company recognised costs related to its post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, the entire cost, including actuarial gains and losses, were charged to Statement of Profit and Loss. Under Ind AS, remeasurements (comprising actuarial gains and losses, excluding amounts included in net interest on the net defined benefit liability) are recognised immediately in the Balance Sheet with a corresponding debit or credit to retained earnings through OCI. Thus, the employee benefits expense is reduced by such amount and a corresponding adjustment to the defined benefit plans has been recognised in OCI in "Other Equity".

Under Indian GAAP, the concept of OCI did not exist. Under Ind AS, certain items of income and expense such as remeasurements of defined benefit plans are required to be presented as 'Other Comprehensive Income'.

(b) Deferred Tax

Tax component on Actuarial Gains and losses is transferred to Other Comprehensive Income under IND AS.

Cash Flow Statement

The Ind AS adjustments are either non cash adjustments or are regrouping among the cash flows from operating, investing and financing activities. Consequently, Ind AS adoption has no impact on the net increase/decrease in cash & cash equivalent for the year ended 31st March, 2021 as compared with the previous GAAP

Provincial Finance and Leasing Co Private Limited
